14. Whether AQAR was placed before statutory body ?	Yes
Name of Statutory Body	Meeting Date
Board of Management	08-Feb-2020
15. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning ?	No
16. Whether institutional data submitted to AISHE:	Yes
Year of Submission	2019
Date of Submission	26-Feb-2019
17. Does the Institution have Management Information System ?	Yes
If yes, give a brief descripiton and a list of modules currently operational (maximum 500 words)	University has an effective Management Information System. Major tasks handled by MIS are as following : • Admission Process: Online Admission Form, Admission Criteria verification and generation of students enrollment number. Student admission records are maintained along with their personal details, attendance records, class performance records, cocurricular and extra curricular records. • Accounting Process: Online fee deposition and receipt generation. Besides this the system produces different types of reports related to finances. • Library Management: All library process are managed by KOHA Software. This software has the operational modus for transition, query, administration, reporting, search etc. The library is fully computerized with barcode technology. • Student's Attendance Management System: Attendance of the students is made online with faculty

login portal. Every faculty member is provided with unique user name and password for uploading attendance of students. Various type of reports are generated through ERP. Students and parents can view their attendance online from any place. • Faculty and Staff Attendance Management System: Faculty and staff attendance is made with biometric device which is connected with the University Intranet. The entire record of leave and pay is maintained in the system. • Student's examination system: With the help of attendance login portal each faculty member feeds the internal examination marks of students. Any error while entering marks can be rectified by routing the request through the School Director. The Director sends the request to Examination Cell through his attendance portal ID. The Examination cell prepares the TR and the result of individual student is uploaded on the University website. • Human Resource Management: The University intranet has all the information related to teaching and non teaching staff of each School. This repository helps in sharing and efficient utilization of resources throughout the university and many other modules

.4 – Feedback System				
1.4.1 – Whether structured feedback	received from all the	stakeholders.		
Students			Yes	
Teachers		Yes		
Employers			Yes	
Alumni			Yes	
Parents			Yes	

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

Feedback is regularly obtained from the Students and Parents. Feedback is also obtained from Employer and Alumni. During the year 2018-19 feedback from faculty on course curriculum was also obtained. The detailed process is described in brief as follows: Students Feedback Students feedback on various parameters was obtained online in the month of Feb./March 2019. Two formals were circulated to the students related with (a) Student Satisfaction Survey, and (b) Curriculum Feedback analysis, On the basis of these two formats, overall analysis of the functioning University was done. Students were asked to respond various questions in the form of Excellent, Good and Not Appropriate. Overall student feedback report was prepared from the individual format of students. From the format it was assessed that in which area the University is strong and the area which needs further improvement, and accordingly the strategy for next academic session is formulated. Opinion of students on curriculum is forwarded to respective School's Directors. Based on the feedback, necessary action is taken by the University administration. Faculty Members Feedback Each faculty member provides the feedback for updation/modification of syllabus taught by him/her to the Directors/HoDs/Principal. Before the BoS meeting, if deem fit, the suggestions offered by the Faculty members on Course Curriculum are incorporated and approval is sought. It is not only through feedback that Programmes/Courses are modified but looking to the present day changing scenario, if faculty members suggest any modification in various courses, also considered by the Directors for onward approval from BoS. Feedback from Alumni Though the University is not having formal Registered Alumni Association but time to time the meeting of Alumni Association at the university level and School level is held. In the meeting feedback from Alumni on all matters of the University is obtained. Any suggestions on course curriculum offered by alumni are forwarded to the Directors/HoDs of the respective schools. Feedback from Parents: Every year Parents Teacher Meets are organized in Schools. During interaction with parents, feedback on various issues are obtained by mentors. Parents are encouraged to suggest changes if any regarding the improvement in the functioning of the University. Management take into account, if any of the suggested changes helps in further strengthening the academic environment of the University. Feedback from Employers Feedback from employers regarding the

performance of students is taken by the Placement Cell of the University. As per the advice of the employers efforts are made to modify the content of carrier and training activities of the Placement cell. Employers feedback if any on Course Curriculum is forwarded to the respective Schools.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.1 – Student Enrolment and Profile

2.1.1 – Demand Ratio during the year

Name of the Programme	Programme Specialization	Number of seats available	Number of Application received	Students Enrolled

2.3.2 - Students mentoring system available in the institution? Give details. (maximum 500 words)

VERY EFFECTIVE Mentorship programme is a unique feature of University as it provides kind of guidance to each and every student. Class wise mentors are assigned to the students. Faculty members are responsible for counselling and consultation of students regarding the issues pertaining to their academic and career development. The mentors provide: • Expert guidance to the students for their professional development. • Help the students in adapting to the culture and environment of the University. • Guidance in particular subjects, apprise the concerned subject teacher to arrange remedial classes, help to solve academic and personal problems. • Motivation to the students for both professional (higher studies, startups and entrepreneurship) and personal guidance. • Advice and support the students for continual improvement (Science guiz, poster presentation, debates, class seminars). To conduct tutorial classes for slow learners. The mentorship system enables productive interaction, mentorship and guidance to the students by the faculty members of the University. Mentors provide students all the information related to upcoming activities at University and at School/Department level, career and placements etc. This keeps them motivated. The counselling provided by mentors also helps in maintaining discipline and decorum among the students. Our mentors provide another source of support to students, an independent thinking and to listen to their problems. While confidentiality is important between the mentor and student, mentors carefully explain to parents who are concerned about their ward for further overall development. Finally, both mentee and mentor may redefine their relationship as one of equals, characterized over time by informal contact and mutual assistance, thus becoming true professional colleagues. The Steps initiated by the University are always student centric

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

The University has a dedicated Estate office for overseeing the construction of new buildings/ blocks, maintenance of buildings, Class rooms, Laboratories, Hostels and other infrastructure. Adequate in-house staff is employed to maintain hygiene, cleanliness and infrastructure on the campus. University ensures optimal allocation and utilization of the financial resources for maintenance and upkeep of different facilities. Laboratory Facilities: The University has large number of Scientific Laboratories in Schools, Medical Institute Hospital. The entire record of equipments is maintained by the Lab Assistants. The calibration, repairing and maintenance of lab equipment's, is undertaken by the external agency. Library: Library is one of the important facilities frequently used by students and faculty. The University has four libraries in its four campuses. All libraries are fully automated with the help of KOHA software. The Central Library is a member of NPTEL, E-Resources consortia and DELNET (ILL) assisted libraries. Computers with broadband connectivity are available to students and faculty. Stock verification of Books and Journals is done every year. Binding of damaged books is a regular feature. Sports Complex: University has facilities for both indoor and outdoor games. Gym facility is also provided. All play grounds and indoor stadiums are maintained by the sports officer with the support of subordinate staff. Computer: University has large number of computers (more than 1,500) with internet connection and other softwares. The IT Department of the University takes necessary steps to ensure the integrity of computer systems installed in the University. Every Computer lab has a Lab assistant which time to time handles the maintenance services of all computer systems. Class Room, Seminar cum Conference Room, Auditorium: University has adequate number of class rooms in every school. In most of the schools, seminar cum Conference Room are also available. All campuses are having separate auditorium with good number of seating arrangement. All auditoriums are air conditioned and LCD Projectors with good sound system affixed. Health Facilities: University has 1000 bedded multi-specialty hospital i.e. JNU Institute of Medical Sciences and Research Centre, which is 24 hours operational. Consultancy services are provided free of cost to the students, faculty and non-teaching staff. On all the investigations and hospitalization thirty percent rebate is given to the staff

and students. Other facilities: • University has separate hostels for Boys and Girls within the campus with proper safety and security. An International Hostel for foreign students is also available. • Facilities of canteen, cafeteria, stationery shops, bank, ATM are also available on the campuses. • Campus security and safety is through surveillance cameras which are installed both in the buildings and outside the buildings. • Proper arrangement of recycling of waste water exists. This water is used for maintaining the eco friendly campus through drip irrigation system. • Power supply is well maintained on the campuses. There are big generators installed in all the campuses. On roof top of the campuses Solar Panels are installed. • Fire fighting systems have been installed in all the buildings of all the campuses.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

Jaipur National University has student council for both Postgraduate and Undergraduate programmes. Students are actively involved in the academic and administrative functions through a student council (SC) and student welfare activities. University is keen to incorporate moral and ethical values to students and support for smooth conduct of co-curricular activities. Student Council (SC) and Student welfare: The student council and student welfare activities, jointly take up the issue of student grievances and all related matters. Students can approach council for their problems and council takes follow up of the problem with the higher administration of university to solve the issues. Each department has student members to help the council in all departmental grievances. Students' grievances include issues related to marks and grading, examination, time table, departmental facilities, teaching pedagogy, or any other issue. Departmental Level Clubs and Committees: University and departmental level various clubs have been formulated such as Health club, Music club, Sports club, Poetry, Cultural activities clubs etc. These clubs are involved in timely arrangement of events at university and departmental level. These clubs also arrange seminars and workshops related to their fields. Clubs and committees are the platforms where student learn sense of responsibilities and they get plethora of opportunities with new ideas. In the umbrella of clubs students arrange seminars, guest lectures, various other professional activities, such as engineers' day, pharmacist day and doctor's day etc. For the holistic development of students these clubs at the different levels interact with alma mater and discuss the probable developmental plans for university with help of alumni contributions. Internal Complaint Committee (ICC) This committee includes class representative, faculty members and staff who coordinate to solve any grievance of the students which may be related to personal or professional development. Student's coordinators are involved in communicating with faculty for the betterment of courses and classroom teaching. Monthly these representatives have meeting with faculty mentors and these reports are discussed with the Director of the respective schools for necessary action. Internal quality assessment cell (IQAC) Internal quality assessment cell (IQAC) also has student members which represent all the student related matters to the cell. Sports Committee The sports committee is one of the most active committees on campus with various sporting events taking place throughout the year. University sports committee aims to enhance the interest of the students in the field of sports and provides knowledge, skills and techniques required for different events. The committee organizes various competitions round the year. The committee also caters to the interests of the participants with good knowledge of sports by organizing various events such as sports quiz, fantasy leagues and sports analytics. Disciplinary Committee (DC) The Disciplinary Committee (DC) ensures compliance of Code of discipline throughout the year. Good conduct of students adds value to the university. The committee also suggests suitable action in case of any indisciplinary act. In addition to main committee campus disciplinary committees have also been constituted which help to manage campus discipline.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

No

5.4.2 – No. of registered Alumni:

0

5.4.3 - Alumni contribution during the year (in Rupees) :

0

5.4.4 - Meetings/activities organized by Alumni Association :

2018-19 witnessed numerous activities of the alumni meet at different schools, and a few highlights are as follows: 1. Annual General Meeting was held at each school on 12th January 2019 to assist in running Pro- Bono Mentorship classes for competitive examinations in association with the universitys departments. 2. Meeting of the Executive Committee was held on 23rdFebruary 2019 to proceed for the registration of Alumni Association. 3. There were a lot of Cultural programmes at different schools. 4. A lot of other activities like Quizzes, Debate and outdoor games were held during the Alumni Meet in the different Schools. 5. A Plantation Campaign was also organized. 6. Lecture series held by Alumni under Alumni - Student mentorship Programme was highly appreciated by the students.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The senior-level management consists of the Chairman, President, Directors and Senior Faculty members of different Schools, who are responsible for the formulation of strategic policies as well as procedures pertaining to academic and administrative systems of the organization. The other level of management consists of Registrar, Controller of Examination, Director Library, Director Academics, and Chief Finance Officer. The Registrar of the University is the disciplinary authority of the University who is bestowed with the power to enter into the academic and administrative affairs on behalf of the University. Controller of Examinations is responsible for the conduct of entrance tests for admission to various courses offered by the University. Also, the Controller of Examinations is responsible for conduct of end-semester exams, issuance of date sheets for conducting exams, coordination of examination tasks with different committees and University Schools, declaration of results, and coordination of paper setting and formulating financial norms for examination related issues. Director Library is accountable to maintain, update and manage daily operations of the central library of University and departmental libraries of various schools. Moreover, duties comprise policy recommendations, departmental planning, direction and administration of library activities. Chief Finance Officer undertakes the general surveillance of the funds and recommends financial policies of the University. Further, Chief Finance Officer manages the assets and investments of the University funds and is responsible for preparing annual budget and accounts of the University. Director/Dean of all schools occupies a distinctive position as a leader and coordinator of the University academic activities, curriculum development and administrative affairs related to the School. The Director oversees, appraise and support the schools in order to promote excellence in academic delivery and research work. Head of Departments, Deputy Directors, Assistant Directors, Coordinators and Faculty Members work under the guidance and direction of respective Directors of the School. The implementation of the plans and policies formulated is decentralized to the various functional heads of the hierarchy. The staff and line functions are well-defined and inter-coordination at various levels and intra-coordination of various Schools help in achieving the laid down

objectives as per the Vision and Mission of the University. The curriculum is being designed in different Schools where every stake holder, like students, faculties, alumni give their valuable contributions in the formulation of course contents. The participative management functions at all Schools of Jaipur National University which is reflected by involvement of all the stakeholders and taking their feedback from time to time for continuous evaluation incorporating the desired changes to keep in line with global requirements to impart best education guidance to students. This is achieved by regular Board of Studies, three tier mentoring process i.e. Students mentoring, Industry mentoring and Parent meets to bridge the gaps. The timely examination and result declarations support the Campus Placements of students from different streams for getting better remunerative jobs on good positions. The monitoring of academic other activities are being governed by Academic Council Board of Management.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 - Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Stratogy Type	Dotaila
Strategy Type Admission of Students	Details University publishes prospectus providing details of all courses with their eligibility criteria. For some of the programmes, admissions are made on merit basis and for some of the courses on-line test are conducted. Admission in JNUIMSRC (Medical) is made through NEET. For some of the courses such as Nursing, Pharmacy, Education, Law,
	Agriculture etc the seats are being sanctioned by respective regulatory agencies. For all courses University conducts personal interview (PI). University also conducts entrance test for admission in Ph.D. and M. Phil programmes in different disciplines. University provides Scholarship to meritorious students.
Industry Interaction / Collaboration	University has tie-ups with various industries. Students undertake industrial projects, training, internship in different institutions of national importance/Research labs/Industries as a part of their curriculum. Industrial visits, lectures by industry experts and domain experts, Inspirational talks by successful entrepreneurs are regularly conducted. Skill development programs are conducted in association with industry to bridge the gap between academics and industry. The institution has formal agreements on MOU's with various National and International Universities and organizations of repute. National

	and international collaborations leveraged over the years. The collaboration gives practical as well as international exposure of designs to the students.
Human Resource Management	The faculty is appointed through Constituted Selection Committee. Applications for different positions are invited through advertisements. The University also has the time - bound promotion scheme for both teaching and non teaching staff. Every year University goes for self appraisal of teachers and their yearly increments are decided on the basis of their performance academically and participation in corporate life of the University. Faculty members are also encouraged to participate in conferences, seminars, publishing articles in reputed Journals and attending FDPs. University also encourages non teaching staff for the up-gradation of their qualification and participation in various activities academic or non academic.
Library, ICT and Physical Infrastructure / Instrumentation	University has got various libraries. All purchases of new books and subscription for Journals is carried out by Central library on the basis of requisition received from respective Schools. Central library is computerized. To promote excellence in research and academic delivery, the University has subscribed the various National and International e-journals: University has good ICT infrastructure, Wi-Fi Campus, smart class rooms, wireless networking and computers are installed in all schools, library, offices, labs, Hospital etc. Clinical teaching facilities in the JNU - Hospital is fully ICT enabled. The physical infrastructure includes lecture halls, auditorium, Seminar hall, Operation theatre, laboratories, sports facilities, guest houses, hostels etc.
Research and Development	Faculty members are given incentives for publication of articles. They are also encouraged to attend conferences, symposia and seminars regularly. University promotes research by sanctioning in house projects, for which financial grant is given to PI. The University has both national and international tie ups which help in

	broadening the intellectual horizons and learning both at national and global level. Every faculty is encouraged to apply for major and minor research projects from various government agencies and industries making provisions for purchase of ultra modern processing and testing equipments. Funding is also provided by the university itself to encourage research and development at each and every level.
Examination and Evaluation	Internal presentation, midterm test, attendance and semester end examination are conducted as per semester schedule. Question papers are moderated by senior faculty members. Answer books are centrally evaluated. Practical/Clinical examinations are made more transparent by appointing external examiners and bringing in objectivity. Transparent evaluation of Answer Books is ensured. Results are declared approximately within 30 days and displayed on website. Transparency in continuous evaluation is ensured at the institutional level. Internal evaluation of the students is a continuous process and performance of the students is judged continuously in classrooms through special tests, assignments, group discussions, role plays presentations.
Teaching and Learning	The teaching pedagogy is according to the outcome based education system. Lesson Plan is distributed to the students before the beginning of each session. Usage of modern methods of ICT enabled teaching, hands on training and one-to-one demonstration, Assignments, seminars, practical's, field visits, live projects are also the part of teaching and learning process. Before the commencement of the session, academic calendar of the University is prepared, in which schedule of orientation, induction of new students, mid - term test, semester end exam, cultural and sports activities are mentioned. Training programmes and workshops for career advancement and personality development are regularly organized.
Curriculum Development	Every year the curriculum is reviewed in the board of studies of each department and after taking inputs from all stakeholders and the experts from

academia and industry the curriculum is revised. During the revision of
curriculum, Schools consider the course
curriculum framed by the regulatory
agencies such as MCI, PCI, BCI, NCTE,
NCI, AICTE. During the session CBCS has
been introduced in some of the UG
Programmes. Curriculum of most of the
Courses is based on the market -
industry requirement. If required new
courses are also added on the advice of
the experts.

6.2.2 – Implementation of e-governance in areas of opera	6.2.2 – Implementation of e-governance in areas of operations:						
E-governace area	Details						
Planning and Development	University promotes the usage of paperless communication and promotes ICT for the same. University conducts on line meeting through online platforms						
Administration	To provide a hassle free, convenient and cost effective process, maximum of the administration of the university is handled with ERP. Facilities like Registration Portal/ Student Course Authorization, Teacher Section Authorization, Attendance Module, E- Notice/ Announcement, Biometric Attendance of Staff and Hostel Management is in online mode.						
Finance and Accounts	For ease of maintaining finance and accounts, the University is already using software. Appropriate security measures are taken for maintaining confidentiality of the transactions. Training to the existing staff and updating of the existing software's is done on timely basis.						
Student Admission and Support	The University is processing all admissions in online mode. This covers admissions to all courses whether graduate, post graduate, Ph.D., or diploma. This module of ERP covers Lead Management, Follow up of Lead, Online admission, Application Processing, Online Entrance Exam, Online Counseling, Online Fee, Eligibility check document Verification, helps to search Admission on the basis of the parameters like Unique Registration Number, Name Wise, Admission Date, Category Wise, Class Section Wise, n number of Possibilities						
Examination	University is handling the examinations in online manner. Software and systems are used to plan and manage						

	all the activities related with the examination through Fee Submission, Enrolment Generation, Filling of Exam Form, Date Sheet Punching, Date Sheet Approval, Roll No. Generation, Admit Card, Answer Sheet E-coding, Marks Punching, Marks Approval, Total Marks Approval, Result Calculation, TR Report Generation, Declaration of Result,

6.4 – Financial Management and Resource Mobilization

6.4.1 – Institution conducts internal and external financial audits regularly (with in 100 words each)

An audit plays an important role as it provides credibility to a set of financial statements and gives the management confidence that the accounts are true and fair. It can also help to improve an entity's internal controls and systems. It helps the entity: • To assess the effectiveness and efficiency of its operations • To assess compliance with the applicable laws and regulations To assess reliability and integrity of financial and operational information, and • To assess compliance with internal policies and procedures Therefore to achieve true and fair financial statements, the management of the University has appointed Statutory as well as Internal auditors and both the audits are being conducted with defined periodicity. The timelines for the same are stringently adhered to and executed with necessary due diligence .Whereas statutory audit is done once in a year. Internal audit is executed on a quarterly basis. The Scope of the internal audit is planned at first level in a manner that all of the Universitys activities, funded from whatever source, fall within the scope of the Internal Audit The scope of internal audit work covers all operational and management controls with a close check on the accounting system of the organisation. It checks everything from the vouchers, to the authority of the transactions, to mathematical accuracy. All entries are verified against documents and other proofs. The Internal Audit work is performed with due professional care, in accordance with appropriate professional auditing practice. It streamline all transactions and check the compliance level across the hierarchy and is more focused on authenticity of financial transactions and monitoring of tax and other regulatory compliances. The scope also covers verification of the receipts and transactions of all sorts of fees routed through System i.e. ERP on a monthly and yearly basis. Statutory auditors appointed under the regulations of the University conduct the external audit in accordance with generally accepted auditing standards prescribed by the Institute of Chartered Accountants of India. They conduct the audit procedures to obtain reasonable assurance about whether the financial statements are free from material misstatement and give a true and fair view of the state of affairs at the end of the year. The external auditors also review the status of procedural and transactional compliance in all financial transactions of the University largely conducted through ERP. All audit objections are monitored through follow-up tracker for early resolution before signing of financial statements and audit reports. The audit objections are settled through various procedures ensuring uniform compliance. There is a yearly procedure of reviewing and updating to ensure that the same Audit objections are not repeated and the entire process is transparent and uniform in its planning and execution. Updating of procedures as per amended rules is done seamlessly and promptly with full focus on the sanctity of processes and systems

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

• Installation of the Solar Power Plates as top of the buildings. • Massive Plantation • Effective and sustainable water management in campus • Use of more LED Blubs Proper waste management

7.2 – Best Practices

7.2.1 - Describe at least two institutional best practices

Best Practices Best Practice - I Students Attendance Monitoring, Discipline and Close Surveillance. (1) Title of the Practice: Students Attendance Monitoring, Discipline and Close Surveillance. (2) Objectives of the Practice: • Attendance is one of the strongest predictors of a student's success. Improved attendance leads to higher student success rate. University is very serious in conducting regular classes and ensuring students attendance. • Maintaining student discipline is also the priority of the University. The University believes that students must take responsibility for their own misconduct. • CCTV Cameras surveillance to monitor and keep track of all the activities happening in the campus. (3) The Context Students must attend all teaching - learning activities which are essential for their studies. Class attendance is a joint responsibility to be shared by the students, parents or guardian, teachers and administrators. Students perform better in the Class / University, when they are regularly attending their classes. Regular attendance and the sense of responsibility are the two important parameters of students performance. In the university they have to appear in Semester - end examinations, two Mid - Term examinations, give presentation and assignments and oral Viva - Voce in one semester. All students are informed through Students Hand Book which is given to them at time of the start of the session, that - 75 attendance in all papers is mandatory, failing which, they may not be allowed to appear in mid - term or end-term examination. University is very serious in maintaining discipline. Discipline makes them a good citizen. University has set rules of discipline which are mentioned in the Students Hand Book. Various misconduct have been mentioned in the Hand Book and the punishment there of. The University has the strong surveillance system which is monitored through CCTV cameras and Guards on Gates of all the four Campuses. CCTV Cameras aid in monitoring and bullying amongst students. They help in ensuring discipline and punctuality amongst students. Keep parents mind at ease about University security and environment.

4. The Practice For monitoring students attendance, every month the attendance is displayed on the Notice Board subject wise. The students are detained for want of 75 attendance paper wise and term wise examination. If for any reason students fail to attend the 75 attendance during first mid - term they become regular later on. Rules for leave of absence are being mentioned in the Student Hand Book. All practices followed for maintaining discipline in the campus are being mentioned in the Hand Book. For maintaining discipline every school has mentors who look to the problems of students. At the central level University has the Proctorial Board which is headed by the Chief Proctor. CCTV Cameras are installed at all important points including School / Departments Buildings.

installed at all important points including School / Departments Buildings, Gates, Library, Hostels, Administrative Office, Examination cell etc. 5. Evidence of Succours: Student's attendance forms an integral part of academic performance and reviews. Term wise monitoring of attendance and its display on Notice Boards has helped in improving attendance of students and learning process. In case of shortage of attendance in any of the papers, students are allowed to appear at the time of back - paper examination. In case of absence in the class, administration takes the decision looking to the individual's grievance. Installation of CCTV Cameras at strategic points has helped in strict surveillance and maintaining discipline. The surveillance activity is done with complete awareness on the part of the students, parents and faculty. CCTV surveillance system has helped in ensuring a safe secure and healthy learning environment for students. 6. Problems encountered Resources required Some times there is problem in convincing the students if they fall short of attendance. Many a times when parents are informed they do not turn up to resolve the issue of their wards. Even at the time of holding of Parents -Teacher meeting, the parents presence is not remarkable. There is no problem of

resources, because for such activities no finance is required. Best Practice-II 1. Title of the Practice Green and Sustainable University Campus 2. Objectives of the Practice • Creating a Eco - friendly Campus • Maintaining Campus green through regular plantation of different plants. • Effective management of water

resources . • Installation of solar panels to meet the maximum power
requirement through renewable energy source. • Use of certain Green Practices.
3. The Context-: The university is situated near Aravail Hills, hence to
protect the beauty the University has developed sprawling green campus. When
University came into existence, it was a barren land, no roads, all scattered

fields. Dry area with lack of water around the Campus. Unsecured area. Hence to develop the area in a green and sustainable campus was the primary vision of the founders of this institution. 4. The Practice The Uniqueness of the Jaipur National University campus is that it demonstrates respect for environment while ensuring the quality life on campus for all stakeholders. The University is Committed to make investments in the projects that ensure building up of sustainable green campus. The University has undertaken various initiatives to setting up an eco - friendly campus. A number of plantation programs have been organized under the Go Greencampaign to make the campus green, Plants of

various varieties have been grown for the purpose of carbon neutralities. STP plants have been installed and commissioned at different locations in the campus. Liquid waste is being treated and water generated through this process

is used for (a) flushing water for Toilets (b) for gardening purposes University has the water harvesting plants also. Rain water is stored for reuse. • Major initiatives are being taken to make maximum use of renewable energy at all the four campuses where roof top solar panels have been installed. The capacity of all these solar plates is 1586 KW which generates 56.80 of the total power requirement of the University. • University is also making use of some green practices. Efforts are being made to make offices paperless by promoting e-mail system. Pedestrian friendly roads are built in all the campuses to make the walk safe for students, staff members and visitors. Time to time interactive sessions are being organized in the campus

to create awareness among the students focus on the hazardous effects of

plastic pollution and the elimination of plastic use. Evidence of Success: Success in the creation of eco - friendly campus can be judged from the following: • Plants are properly maintained, by trained Gardeners all the year round using recycled water. • No water goes waste. STPs are installed and commissioned where liquid waste is being treated and water generated. • Roof top Solar panels have been installed which are continuously increasing the share of renewable energy in total consumption of power. • University has made all efforts to put in green practices in the Campus. All these efforts have resulted in good greenery across the four campuses. The water supply is mainly through tankers from outside in this area. It is a matter of great satisfaction for the University that when visitors visit the campus they are impressed by the cleanliness of the campus, the greenery and the plantation. It is again the matter of satisfaction when our students imbibe this spirit. 5. Problems encountered Resources required While the opportunities to explore eco friendly possibilities are evident, it is an expensive task. The area has severe problem of water. Most of the water requirement is met through tankers from outside. University has few Borings but these borings do not fulfil the requirement of the University having large number of staff quarters, Boys Girls Hostels a large Hospital etc. Installation of solar plates is a successful idea, though it is also a costly affair but in near future this will reduce the University's dependence on Government's supply of power.

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

https://www.jnujaipur.ac.in/Uploads/Files/71uf_AQAR(2018-19)7.2.1.pdf

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

DISTINCTIVE PRACTICE OF JAIPUR NATIONAL UNIVERSITY Campus placement division of Jaipur National University intends to provide a strong base to our students for a successful professional career ahead. The division makes effort for creating employment opportunities to the graduating students enabling them to start their corporate journey even before or just after completion of their course curriculum. The focus of this program is to provide career counseling and develop soft- skills of the students that help them in gaining professional competencies they require for getting jobs in their dream organizations. The students learn different dynamics of corporate world through interaction with Industry professionals during campus placement activities. At Jaipur National University, placements and corporate interaction is of prime focus as it helps in providing a competitive edge to the Institution in the education sector, and thereby increases the value of the money that the parents of students pay as tuition fee to the Institution, in getting them suitably placed in corporate. A dedicated team of expert Training and Placement Officials is appointed that helps University in achieving its campus placement objectives. The placement team in coordination with faculties from different Schools trains the students as per latest Industry trends and requirements of present and future jobs. The team ensures that every student who goes through the entire recruitment process and gets selected by company, accepts the offer and joins the company. To do this, it has to align the job profile, company and candidates career aspirations. The team maintains constant connections with the companies HR to invite them for campus placements. More than 60 per cent of the companies are our regular recruiters and every year new connections are built through direct contacts with HR and Alumni via Social media, professional websites like Linkedin. We design placement brochure of graduating batch to be sent to recruiters consisting of a brief profile of students and information about the University. Our strong network of Alumni is actively engaged in Industry

interactions and campus recruitment of students. Mock sessions are organized by professional trainers namely, TIMES, Career Launcher, Cocubes, Campus Select, Career counselling by Corporate Personnel, to prepare students for Technical round, aptitude test, group discussion round and HR interview. Around 300 companies visited for campus recruitment and other Industry interaction related activities in the session 2018-19. More than 250 recruitment drives and 60 internship drives were conducted during the session by leading Industry giants. More than 500 students were offered jobs by the recruiters. The students selected for internship were paid an average stipend of Rs. 20000/- during internship period. Some of our prominent recruiters during the academic year that helped us in achieving our campus placement objectives were Indian Army, Indian Navy, Suzlon Energy Ltd., UltraTech Cements Ltd., Tata Tiscon, TCS, Wipro, Reliance Communications Infrastructure Ltd., IBM, SAP Labs India, Cipla Ltd., L T Infotech, Amazon, Reliance Retail Ltd., OYO Rooms, Zomato, The Oberoi Group, PVH Corp. (Tommy Hilfiger Calvin Klein), McDonalds, Patanjali Ayurved Ltd., Jaro Education, BYJUS, Concentrix,

Provide the weblink of the institution

8. Future Plans of Actions for Next Academic Year

Following are the future plans of action of the University for the next Academic Session: • Introduction of new programs in engineering stream. (i) B.Tech Biomedical Engineering (ii) B.Tech Computer Science in Cyber Security. • Introduction of new program in school of Agriculture Science i.e B.Sc (Hons.) Horticulture. • To finalise Programme Outcomes, Programme Specific Outcomes and Course Outcomes of New Programmes. • To initiate the process of II cycle of NAAC accreditation of the University. • Obtaining 12(B) status of the University from UGC. • Establishment of the Incubation Centre. • Further strengthening of Central Instrumentation Centre. • Motivating Faculty members for obtaining Research Projects from external funded agencies as well as In-house Projects for promoting research culture at campus
